Web Development Diploma — 2022
Code Academy Berlin

Digital Media Certificate IV — 2008
Hornsby TAFE, Sydney

Higher School Certificate — 2005
St Peter's Catholic College

PROFILE

Born 30.06.1987 in Sydney, Australia.
Australian and British duel-national, Aufenhaltstitel GB.
I'm currently a full-stack web development student at Code Academy Berlin, and I hope to transform a passion for puzzling through code into a future.

EXPERIENCE

Code Academy Berlin   2022

Web Development

5 months full-time, on-site, project-based learning. Code Academy operate following the agile / SCRUM framework, including sprints, spikes, code reviews, and presentations. This simulation of a tech work environment is to encourage a smooth transition into the tech field for students from all professional backgrounds.

Project examples:

◆ **Current Project** || preview || github
Collaborate together with 3 fellow students to migrate Code Academy learning platform from **MERN** to **Next.js**, with a focus on learning to use **Typescript**, and make **GraphQL** queries from a **Strapi** backend.

◆ **Lemon Drop Recipes** || preview || github
Build a **Social Network App** using the **MERN** (**MongoDB**, **Express**, **React**, **Node**) Stack. **Mongoose** provides structure with schemas/models, **Cloudinary** hosts the images, and **JWS** tokens provide authentication, along with other middleware such as **Multer**, **Passport**, **Bycrypt** and **CORS**.

◆ **DnD Assistant** || preview || github
Build a **Progressive Web App** using the JavaScript framework **React, Firebase Authentication** for user authentication, and **Firestore** as a **NoSQL** database.

◆ **PokeProject** || preview || github
Build a simple **webpage** using **HTML5**, **CSS3**, **JavaScript**, **AJAX**, **APIs**, **JSON**. Use a free **REST API** providing a list of entries, transform the data into **JSON** format and display them using **DOM manipulation.**

MOST RECENT EMPLOYMENT

Hard Rock Cafe *in Berlin, DE*   2013-2022

Bartender
